

Product Specifications

1600

BTE ITE ITC CIC

FEATURES

Integrated Real Ear

- Performs real ear measurement and incorporates data immediately throughout Inspire OS 2.0

Auto Path

- Initial fitting protocol performed in less than two minutes

Advanced Benefits

- Voice Indicators – use speech to alert wearers of hearing aid status
- Self Check – runs a diagnostic check of the microphone, circuit, and receiver
- Reminder – provides an audible reminder for follow-up appointments

1200

BTE ITE ITC CIC OTE

Environmental Adaptation

- Includes Acoustic Signature, a state-of-the-art environmental detection and adaptation system
- Identifies unique sound environments and adjusts to them instantly
- Automatically detects quiet, mechanical sounds, wind, and other sounds

- Includes Acoustic Signature, a state-of-the-art environmental detection and adaptation system
- Identifies unique sound environments and adjusts to them instantly
- Automatically detects quiet, mechanical sounds, wind, and other sounds

800

BTE ITE ITC CIC

- Transitions seamlessly from one acoustic environment to the next
- Provides superior identification and detection of quiet and other sounds

400

BTE ITE ITC CIC

- Transitions easily from one acoustic environment to the next
- Detects quiet and other sounds

Data Logging

- Links with Acoustic Signature to identify and log individual sound environments
- Enables the highest level of personalization in adjustments

- Links with Acoustic Signature to identify and log individual sound environments
- Enables the highest level of personalization in adjustments

- Records a wide variety of information about the daily use of hearing instrument
- Enables highly customized adjustments

- Records a wide variety of data about the daily use of hearing instrument
- Enables highly customized adjustments

Fine Tuning

- 8 channels for sound adaptation
- 12 bands for the most precise level of fine-tuning currently available

- 8 channels for sound adaptation
- 12 bands for the most precise level of fine-tuning currently available

- 8 channels for sound adaptation
- 10 bands for enhanced fine-tuning

- 4 channels for sound adaptation
- 8 bands for fine-tuning

Active Feedback Intercept

- Provides virtual feedback elimination
- Prevents whistling
- Eliminates irritating artifacts
- Works in concert with Directional Speech Detector and Acoustic Signature to produce a clean, feedback-free sound quality

- Provides virtual feedback elimination
- Prevents whistling
- Eliminates irritating artifacts
- Works in concert with Directional Speech Detector and Acoustic Signature to produce a clean, feedback-free sound quality

- Provides virtual feedback elimination
- Prevents whistling
- Eliminates irritating artifacts
- Works in synergy with environmental adaptation to produce better sound

- Provides virtual feedback elimination
- Prevents whistling
- Eliminates irritating artifacts

Automatic Telephone Response

- Instantaneously and automatically adjusts for optimum telephone communication

- Instantaneously and automatically adjusts for optimum telephone communication

- Instantaneously and automatically adjusts for optimum telephone communication

- Instantaneously and automatically adjusts for optimum telephone communication

Adaptive Indicator Tones

- Unique tones for memory, low battery, volume, etc.
- Automatically adjusts in noisy environments

- Unique tones for memory, low battery, volume, etc.
- Automatically adjusts in noisy environments

- Unique tones for memory, low battery, volume, etc.
- Automatically adjusts in noisy environments

- Unique tones for memory, low battery, volume, etc.
- Automatically adjusts in noisy environments

Directional Speech Detector

- Features industry's best Directivity Index
- Improves speech intelligibility in noisy environments
- Standard on the BTE

- Features industry's best Directivity Index
- Improves speech intelligibility in noisy environments
- Standard on the BTE; optional on ITE, ITC, and Destiny OTE

- Features industry's best Directivity Index
- Improves speech intelligibility in noisy environments

- Features industry's best Directivity Index
- Improves speech intelligibility in noisy environments

Lifestyle Usage Guide
